Protect Natural Resources

- Avoid damage to vegetation and wildlife resources by travelling and camping on durable surfaces, and where impacts from use are already evident
- When fires restrictions are not in effect:
 - use only existing fire rings or bring a fire pan
 - do not place glass, plastic, foil or other non-flammable materials in campfires
 - bring your own firewood or gather only dead and down wood – do not cut or break branches from live trees
 - douse your fire with plenty of water and check that it is cold before leaving it unattended
- Pack out trash, toilet paper, and solid human waste
- Observe wildlife from a distance to avoid unnecessary disturbance. Leave what you find and leave no trace
